Policy of the Journal

Agricultural Economics is a new international journal devoted to serving the interests not only of the International Association of Agricultural Economics (IAAE), but also of agricultural economists all over the world. The journal will provide a focal point for the publication of work on research, extension and out-reach, consulting, advising, entrepreneurship, administration and teaching, in the following areas of agricultural economics

- ① **disciplinary work** - improvement of theories, techniques and descriptive knowledge of economics and its contributing disciplines such as statistics, mathematics, and philosophy,
- ② **multi-disciplinary subject matter areas** - energy, technical change, institutional change, natural resources, farm management, rural communities, marketing, human development and the environment, areas which are important to organised groups of public and private decision-makers facing well-defined sets of problems,
- ③ **problem solving** - the definition, solution and management of specific practical problems

All of these may require knowledge of values, non-monetary as well as monetary. The Editorial Board represents the world's different geographic regions to ensure that manuscripts relevant to the agriculture and membership of each region are included.

You can have the
Economic Research Service Database
at your fingertips

ERS has developed a series of computerized databases covering important elements of today's agribusiness and related activities here and abroad. These databases, for sale from ERS in a variety of formats, will be of considerable interest to those associated with government, commercial, and university projects.

For more information on the individual series, contact the individuals below.

Agricultural Outlook Yearbook
Farm Income
Farm Real Estate
Irrigated Farms
Land Improvement Tax Simulator

Suggestions for Submitting Manuscripts for *Agricultural Economics Research*

Contributors can expedite reviewing and printing of their articles by doing these things:

- 1 **SOURCE** Indicate in a memorandum how the material submitted is related to the economic research program of the U.S. Department of Agriculture and its cooperating agencies. State your own connection with the program
- 2 **CLEARANCE.** Obtain any approval required in your own agency or institution before sending your manuscript to one of the editors of *Agricultural Economics Research*. Attach a copy of such approval to the manuscript.
- 3 **ORIGINALITY OF MATERIAL** It is our policy to print original material. We consider alternative treatments of material published elsewhere, but such treatments need to differ substantially from the original approach. When submitting your manuscript, identify, if applicable, related material either published or submitted for publication
- 4 **ABSTRACT** Include an abstract and at least three keywords when you submit your article. The abstract should not exceed 100 words. It should report the major findings of your research.
- 5 **NUMBER OF COPIES** Submit three good copies.
- 6 **TYPING.** Double space everything, including abstract, footnotes, and references.
- 7 **FOOTNOTES.** Number consecutively throughout the article.
- 8 **REFERENCES.** Check all references carefully for accuracy and completeness.
- 9 **CHARTS AND OTHER ARTWORK.** Use charts sparingly. Keep design as simple as possible. Submit all artwork in draft rather than in final form, accompanied by neatly prepared pages with essential data for replotting

Researchers interested in a bibliography arranged alphabetically by author of materials in *Agricultural Economics Research* from the first issue in 1949 through the current issue should write Gerald Schluter, Economist, ERS/ARED, U.S. Department of Agriculture, Washington, DC 20005-4788.

Readers interested in a chronological bibliography of materials in *Agricultural Economics Research* from the first issue in 1949 through the last issue in 1979 should write Gerald Schluter, Economist, ERS/ARED, U.S. Department of Agriculture, Washington, DC 20005-4788.
