Microfiche Proceedings
(Including Invited and Contributed Papers)

It is with pleasure that we present this, the first, microfiche proceedings of an Annual Conference of the Australian Agricultural Economics Society. We trust that all the papers included on this microfiche are legible. Unfortunately, not all authors obliged us with clean copies of their papers from which to produce these fiche; we make no apologies for the quality of their paper reproductions. In addition, some authors did not provide us with any copies of their papers and consequently their papers are not included here.

Included on the Microfiche is the Conference Programme and a list of delegates - this will allow you to contact any authors whose papers are not included on this microfiche or whose papers are not legible.

On the next frame is an index to all the papers included on the microfiche.

We trust that you find this a useful format for immortalising the work presented and discussed at the 32nd Annual Conference of the AAES.
