Foreword

This volume contains a collection of the papers presented at the Biennial Meeting of the Scandinavian Society of Forest Economics, May 12-15, 2004 in Järvenpää, Finland. It was a joint event, organised by Finnish Forest Research Institute (Metla), Forest Economics Forum of the Finnish Society of Forest Science and the University of Helsinki.

On behalf of the SSFE I would like to heartily thank our keynote speakers Prof. Darius Adams, Oregon State University and CEO, Dr. Olli Haltia, Infudor Oy, as well as our panelists in the panel session on topic: “Challenges for Forest Economic Research”, namely President of IUFRO, Prof. Risto Seppälä, Deputy Director, Prof. Sten Nilsson, IIASA and Dr. Jussi Uusivuori, Metla.

During the meeting a cultural tour at Tuusula Lake was made. It included a visit to Ainola, the home of Jean Sibelius, where we had the possibility to enjoy his music. For research work, as well as for composing, peace is needed for creative endeavours.

The organizers and participants express their sincere appreciations to Samnordisk Skogsforskning for indispensable financial support to the conference. We also thank Dr. Heimo Karppinen and Anne Viljakainen for their efforts in helping to organize the meeting and Sisko Salminen and Essi Puranen for the layout-work of this book.
