California Department of Food and Agriculture

Agricultural Commissioners' Crop Reports

Nevada County

1974-1981

California County Agricultural Commissioners' Reports from the California Department of Food and Agriculture. This collection consists of annual crop and livestock data from each of the 58 California Counties. The collection covers 1915-1981; digitization of the rest of the collection is forthcoming.

This digitization project was funded by the Giannini Foundation of Agricultural Economics,
<http://giannini.ucop.edu/> .

The work was completed by the staff of the Giannini Foundation Library, University of California, Berkeley, <http://are.berkeley.edu/library/> . **Please contact the Library to consult the originals.**

Gentlemen:

As required by Section 2279 of the California Food and Agricultural Code, I submit the Nevada County Crop and Livestock Report for 1978.

The total value of \$4,415,300 represents an increase of 1¼ million dollars over 1977. Most of this increase is due to higher cattle prices.

The values given in this report are gross income figures and do not indicate net returns.

I wish to thank Eric Gunderson who compiled this report and all the people who supplied the information necessary to prepare this report.

Respectfully submitted,

John V. Taylor
Agricultural Commissioner

Gentlemen:

As required by Section 2279 of the California Food and Agricultural Code, I submit the Nevada County Crop and Livestock Report for 1979.

The total gross income of \$4,437,800 shows a slight decrease from 1978. The highlight of 1979 was the heavy crop of top quality apples.

The values given in this report are gross income figures and do not indicate net returns.

I wish to thank Eric Gunderson who compiled this report and all the people who supplied the information necessary to prepare this report.

In accordance with the provisions of Section 2279 of the California Food and Agricultural Code, I am pleased to submit the 1981 Crop and Livestock Report for Nevada County.

This report, for the first time, shows the value of timber. The 1981 value for Nevada County was up 3.8 million dollars over 1981. This large increase is due to 2.5 million from timber sales and a 1.3 million increase in poultry sales.

These figures show only gross values and do not reflect cost of production nor net income of the grower.

I wish to thank everyone that supplied the information that made this report possible. A special thanks to Eric Gunderson of my staff who compiled this report.
