California Department of Food and Agriculture

Agricultural Commissioners' Crop Reports

Placer County

1971-1981

California County Agricultural Commissioners' Reports from the California Department of Food and Agriculture. This collection consists of annual crop and livestock data from each of the 58 California Counties. The collection covers 1915-1981; digitization of the rest of the collection is forthcoming.

This digitization project was funded by the Giannini Foundation of Agricultural Economics, http://giannini.ucop.edu/ .

The work was completed by the staff of the Giannini Foundation Library, University of California, Berkeley, http://are.berkeley.edu/library/ . **Please contact the Library to consult the originals.**

Placer County

Agricultural Crop Report

1971

DEPARTMENT OF AGRICULTURE
JOHN H. WILSON, AGRICULTURAL COMMISSIONER
356 ELM AVENUE AUBURN, CALIFORNIA

MAY 1 1972
GOVT. DOCS. - LIBRARY

Mr. Jerry Fielder, Director
California Department of Agriculture
and
The Honorable Board of Supervisors
William Briner, Chairman
Alex Ferreira J. B. Paolini
Robert Mahan Ray Thompson

Gentlemen:

In accordance with Section 2279 of the California Agricultural Code I am submitting the 1971 Agricultural Crop Report for Placer County.

The agricultural income reached a new record high in Placer County of $24,260,000 during 1971, exceeding the previous high year of 1969 by $750,350. The figures shown in this report show gross returns to the agricultural industry, but do not necessarily reflect the net returns to the grower who is continually faced by higher production costs.

The beef cattle industry regained the number one position in gross value in the county during the past year due to some of the best prices paid for beef in many years. The beef industry was followed by the turkey industry and the plum industry in value. The plum crop was affected somewhat by late frosts as were many of the other fruits, however, better prices for plums resulted in an increase in their value over 1970.

I wish to take this opportunity to express my appreciation to those growers, packing house managers and others who assisted in the preparation of this report.

Sincerely,

John H. Wilson

John H. Wilson
Agricultural Commissioner

Placer County Agricultural Crop Report

1972

DEPARTMENT OF AGRICULTURE
JOHN H. WILSON, AGRICULTURAL COMMISSIONER
356 ELM AVENUE AUBURN, CALIFORNIA

UNIVERSITY OF CALIFORNIA
DAVIS
MAY 23 1973
GOV'T. DOCS. - LIBRARY

Mr. C.B. Christensen, Director
California Department of Agriculture
and
The Honorable Board of Supervisors
Robert Mahan, Chairman
Alex Ferreira Jim Henry
Michael Lee Ray Thompson

Gentlemen:

As required by Section 2279 of the California Agricultural Code I am submitting the 1972 Agricultural Crop Report for Placer County.

The agricultural income reached a record high in 1972 of $25,105,550, exceeding the previous record year of 1971 by $1,255,550. Higher livestock and grain prices together with above average grain yields played a major part in the increase over 1971.

The fruit industry suffered a substantial drop in production over last year due to severe spring frosts, with some growers virtually losing their entire crop. However, the total fruit industry value did not drop substantially from last year due to higher prices on the major crops.

The beef industry continues to be the leading industry in the county, followed by the turkey industry, the plum industry, and the rice industry.

It should be kept in mind that the figures in this report show gross returns to the economy of the county, but do not necessarily reflect the net return to the grower who is continually faced with the high cost/price squeeze.

The assistance of those growers, packing house managers and others who helped my staff in the preparation of this report is greatly appreciated.

Sincerely,

John H. Wilson

John H. Wilson
Agricultural Commissioner

Placer County Agricultural Crop Report

1973

UNIVERSITY OF CALIFORNIA
DAVIS
MAY 13 1974
GOVT. DOCS.

DEPARTMENT OF AGRICULTURE
JOHN H. WILSON, AGRICULTURAL COMMISSIONER
11477 E AVENUE WEST
AUBURN, CALIFORNIA 95603

Mr. C. B. Christensen, Director
California Department of Agriculture
and
The Honorable Board of Supervisors
Alex Ferreira, Chairman
Jim Henry Robert Mahan
Michael Lee Ray Thompson

Gentlemen:

In accordance with Section 2279 of the California Agricultural Code, I hereby submit the 1973 Agricultural Crop Report for Placer County.

Although the gross income indicates a new record, it is not a reflection of increased profits to the growers. Production and marketing costs have continued to rise and limit net incomes.

The $34,616,096 agricultural income was led by the cattle industry, followed by the turkey industry, the rice industry and the plum industry.

I wish to express my sincere appreciation to those growers, packing house managers and members of my staff who prepared this report for their assistance in making this report possible.

Sincerely,

John H. Wilson

JOHN H. WILSON
Agricultural Commissioner

AUBURN, CALIFORNIA 95603

UNIVERSITY OF CALIFORNIA
DAVIS
APR 1975
GOV'T. DOCS. - LIBRARY

Mr. Luther T. Wallace, Jr., Director
California Department of Food & Agriculture

and

The Honorable Board of Supervisors
Ray Thompson, Chairman
Alex Ferreira — Michael Lee
Jim Henry — Robert Mahan

Gentlemen:

In accordance with Section 2279, of the California Agricultural Code, I hereby submit the 1974 Agricultural Crop Report for Placer County.

The gross agricultural income for 1974 was $30,759,870, a decrease of $3,881,226 from the record year of 1973. Lower prices for cattle, turkeys and fruit, together with lower turkey production, accounted for this drop. Despite the lower prices obtained last year, the cattle industry remains the leading industry in the County, followed closely by the rice industry.

It must be emphasized that this report shows gross income only and in no way represents the profit to the producers.

The assistance of all those who have provided information for this report is greatly appreciated.

Sincerely,

JOHN H. WILSON
Agricultural Commissioner

JHW:DM:l

Agricultural Crop Report

1975

UNIVERSITY OF CALIFORNIA
DAVIS
APR 2 1976
GOV'T. DOCS. - LIBRARY

DEPARTMENT OF AGRICULTURE
JOHN H. WILSON, AGRICULTURAL COMMISSIONER
11477 E AVENUE WEST
AUBURN, CALIFORNIA 95603

Mr. Luther T. Wallace, Jr., Director
California Department of Food and Agriculture

and

The Honorable Board of Supervisors
Michael Lee, Chairman
Alex Ferreira — Jim Henry
Robert Mahan — Ray Thompson

Gentlemen:

In accordance with Section 2279, of the California Food and Agricultural Code, I hereby submit the 1975 Crop Report for Placer County.

The gross value of agricultural production in Placer County for 1975 was $33,585,756, an increase of $2,825,886 over 1974. The most significant increases in value occurred in the beef cattle and turkey industries. The turkey industry, including meat bird and hatching egg production, is now the leading industry in the County, followed by the cattle and rice industries. The large increase in the turkey industry was brought about by a significant increase in the number of meat birds produced together with better prices for both meat birds and hatching eggs.

With the increasing costs of production, I must emphasize that this report reflects a gross dollar value and in no way represents the net return to the producer.

I wish to express my sincere appreciation to the many people in agriculture for their cooperation in making this report possible.

Sincerely,

John H. Wilson

JOHN H. WILSON
Agricultural Commissioner

TO:
The Honorable Board of Supervisors
Jim Henry, Chairman
Terry Cook — Alex Ferreira
Michael Lee — Robert Mahan

In accordance with Section 2279 of the California Food & Agriculture Code, I hereby submit the 1976 Crop Report for Placer County.

The gross value of agriculture production in Placer County in 1976 was $32,353,750, a drop of $1,232,006 from 1975. The primary reason for this drop was the drought conditions that prevailed in 1976. The cattle industry was hardest hit by the drought, with decreased forage from rangeland, decreased average weight of cattle at time of sale and, in some cases, the partial dispersion of cattle herds.

The plum industry showed a substantial increase in value due to increased yields and better prices. The increase in plum yields can be attributed to favorable weather conditions for plum production; that is, very little rain during bloom, lack of frost and lack of hail.

The turkey industry, including meat birds and hatching egg production, continues to be the leading industry in the County, followed by the cattle, rice and plum industries.

It must be emphasized that these values show gross return to the grower and do not reflect a net return.

I would like to take this opportunity to thank the many people in the agricultural industry whose cooperation and assistance made this report possible.

Sincerely,

JOHN H. WILSON
Agricultural Commissioner

FIRST CLASS MAIL

TO:
Richard E. Rominger, Director
California Department of Food & Agriculture
1220 N Street
Sacramento, California 95814

TO:
The Honorable Board of Supervisors
Robert Mahan, Chairman
Alex Ferreira — Michael Lee
Terry Cook — Jim Henry

In accordance with Section 2279 of the California Food & Agriculture Code, I hereby submit the 1977 Crop Report for Placer County.

The gross value of agriculture production in Placer County during 1977 was $30,519,940, down $1,775,810 from the $32,295,750 obtained in 1976. The drought was the major contributor to the decrease in agriculture production in 1977, with the cattle industry being the most severely hit due to decreased forage on rangelands, weight losses and decreased production of irrigated pasture as a result of the water shortage. The monetary value in the report pertaining to livestock does not reflect a substantial drop as this figure includes breeding stock that was sold due to the dispersal of many commercial herds in the County.

The rice industry suffered a loss in production of 2,500 acres due to water shortages. The loss was partially offset, however, by an increase in the price of rice.

The plum industry showed a sharp reduction in value as a result of yield reductions caused by water shortages, severe frosts in some orchards, and a decrease in price.

The turkey industry, including meat birds and hatching egg production, continues to be the leading industry in the County, followed by the cattle industry and the rice industry.

It must be pointed out that the values in this report show gross returns and do not reflect the net return to the grower.

I would like to take this opportunity to thank those people in the agricultural industry whose assistance made this report possible. Special credit should be given to Jim Henderson of my staff for the preparation of this report.

Sincerely,

JOHN H. WILSON
Agricultural Commissioner

Agricultural Economics Library

Dear Director Rominger:

In accordance with Section 2279 of the California Food and Agriculture Code, I hereby submit the 1978 Crop Report for Placer County.

It must be understood that these figures are estimations, as an accurate report could not be compiled due to staffing reductions caused by the passage of Proposition 13.

I have had to rely upon contacts with a few key ranchers and the experience of my staff in compiling these figures.

Sincerely,

JOHN H. WILSON
Agricultural Commissioner

Alex Ferreira — Jim Henry

In accordance with Section 2279 of the California Food & Agriculture Code, I hereby submit the 1979 Crop Report for Placer County.

Agricultural production in Placer County reached a record high in 1979 with a gross figure of $47,911,160. The 1979 figure exceeds the 1978 figure of $39,498,750 by $8,412,410. Increased prices in nearly all agricultural commodities, together with a substantial increase in rice production, accounted for this increase.

The beef cattle industry regained the leadership in agricultural production and is followed closely by the turkey industry and the rice industry.

It must be pointed out that the figures in this report show gross returns and do not in any way reflect net returns to the growers. Spiraling costs of fuel, power, fertilizer, and machinery, to name a few, negate the return to the grower.

I would like to take this opportunity to thank the members of the agricultural industry who gave assistance in preparing this report and those members of my staff who compiled the report.

Sincerely,

JOHN H. WILSON
Agricultural Commissioner

Alex Ferreira — Larry Sevison

In accordance with Section 2279 of the California Food & Agriculture Code, I hereby submit the 1980 Crop Report for Placer County.

Gross agricultural production in Placer County reached a record high in 1980 with a figure of $54,160,200. The 1980 figure shows an increase of $6,224,040 over the 1979 figure of $47,936,160. Increases in rice acreage and increases in prices for many commodities account for the increase in agricultural production.

In 1980, the rice industry became the leading agricultural industry in the County, followed by the turkey and the beef cattle industries.

I would like to emphasize that this report shows gross returns to the growers and that continuing inflationary costs of production negate the net return to the grower.

In addition, I would like to thank the many members of the agricultural industry whose assistance was utilized in compiling this report.

Sincerely,

JOHN H. WILSON
Agricultural Commissioner

TO:
The Honorable Board of Supervisors
Larry Sevison, Chairman
Robert Mahan — Terry Cook
Alex Ferreira — Michael Lee

In accordance with Section 2279 of the California Food & Agriculture Code, I hereby submit the 1981 Crop Report for Placer County.

Gross agricultural production for 1981 was $54,008,000, which is $446,200 below the record high of 1980. The primary reason for the decline is due to depressed prices for most commodities.

It must be remembered that this report shows gross valuation only and does not represent net returns to growers.

In 1981, the cattle industry is the leading industry followed by the rice industry and turkey industry.

I would like to express my appreciation to the many members of the agricultural industry for providing us with information which made this report possible.

Sincerely,

JOHN H. WILSON
Agricultural Commissioner

JHW:pl
