California Department of Food and Agriculture

Agricultural Commissioners' Crop Reports

Tehama County

1980-1981

California County Agricultural Commissioners' Reports from the California Department of Food and Agriculture. This collection consists of annual crop and livestock data from each of the 58 California Counties. The collection covers 1915-1981; digitization of the rest of the collection is forthcoming.

This digitization project was funded by the Giannini Foundation of Agricultural Economics,
<http://giannini.ucop.edu/> .

The work was completed by the staff of the Giannini Foundation Library, University of California, Berkeley, <http://are.berkeley.edu/library/> . **Please contact the Library to consult the originals.**

VOLUME XII.

JANUARY 8, 1900

NUMBER 111

A Few Pointers

For the Public.

We desire to call attention to our splendid stock of

CARPETS

When you are looking around this fall for additions to beautify the house remember that W. C. Fickert's Carpets are the reliable ones to buy.

You will be shown every courtesy, given plenty of time to decide and the result will give you entire satisfaction.

W. C. FICKERT

Fine Furniture
and Upholstering

D. S. Cone, T. H. Ramsey, Superintendent of the Stanford ranch at Vina, and H. P. Stiles, appeared before the Supervisors to-day (Thursday) and urged the appointment of a Horticultural Commission for this county. They all addressed the Board on the subject and gave facts and reasons why a commission should be appointed. Mr. Cone said that while last year he shipped 60 or 70 car loads of pears from his orchard in Antelope, this season, and for seasons to come, if they were favorable, he would probably ship 400 or 700 car loads from the same orchard as the trees were increasing in size.

Mr. Ramsey read a letter from an eminent horticulturist showing that the trees sprayed bore heav-

ily a board of horticultural commissioners consisting of D. S. Cone, C. F. Foster and Geo. Champlin, and this board is to appoint inspectors who are to examine all nursery stock that comes into the county and spray orchards where it is found necessary.

The petition that was presented was signed by a number of orchardists, and read as follows:

We, the undersigned, freeholders and possessors of orchards in the County of Tehama, do hereby respectfully petition your honorable board to create a Horticultural Commission consisting of three members, under the existing horticultural law of the State.

In asking for the inauguration of this commission, we would respectfully call your attention to

the fact that the value of the products of our orchards and vineyards during the year 1889 amounted in the aggregate to nearly one million dollars, and as this county is without a Board of Horticultural Commissioners and inspectors, we are running great risk of having diseased trees shipped into our county by the various nurserymen of the State, thereby jeopardizing our interests to a great degree.

We are now creditably informed and fully aware that there exists throughout this county a great many insects and pests of various kinds, and that they are multiplying at an alarming rate, making it imperative that action be taken at an early date. Other counties throughout the State have commissions for this purpose, whose interests are not as large as our own.

In view of these facts we would suggest and pray that you appoint the following named residents and possessors of orchards to compose the Board of Horticultural Commission, viz: D. S. Cone, C. F. Foster and Geo. B. Champlin.

For Sale A good span of work horses, wagon and harness, also a cart and single harness. Apply at Manon's livery stable, west of the railroad.

Drs. Mayhew and Mayhew, dentists, rooms 11 and 13 Cone & Kimball Building.

W. W. Conant has plenty of dry wood now for sale at his store on Walnut street.

Texas evinces in her anti-trust law such an ill will towards unionism in any shape or form that to be consistent she should secede, or at least attempt to, from that great national combine known as the United States of America.

DONALD R. HILL
AGRICULTURE COMMISSIONER
DIRECTOR OF WEIGHTS & MEASURES

To: Richard Rominger, Director
California Department of
Food and Agriculture

To: The Honorable Board of Supervisors
William Flournoy, Chairman
Barbara Crowley, Judi Johnson,
Burt Bundy and Russ Frey

In compliance with the Food and Agricultural Code, Section 2279, I am herewith submitting the 1980 Agricultural Crop and Livestock Report for Tehama County. This report represents the gross value of agricultural products and does not reflect the net return to growers.

Total gross value for 1980 was \$89,369,700. This represents a 6.5% increase over the 1979 production value.

Almonds were down over \$5.6 million from their 1979 value. This 62% reduction was brought on by reduced yield due to poor pollination. Olive and prune production was up but unit prices were lower. Increased acreage and per unit value made walnuts the top crop of all fruit and nuts in 1980.

Brood cattle total value was up over \$2 million in spite of lower unit prices. Sheep and lamb weights and prices were both lower, resulting in a significant reduction in value.

Total field crop values were up over \$2.8 million in 1980 because of increased prices received for most crops. Wheat was the leading field crop both in acreage and total value.

Milk production continues to increase in Tehama County along with average prices making total value over \$4.5 million. Package bees and queens helped to push apiculture products over the half million dollar mark for the first time.

I wish to express my appreciation to the many firms, agencies, and individuals who provided this information and especially to Glenn Neilsen, Assistant Agricultural Commissioner, who directed the compilation of this report.

Respectfully submitted

Donald R. Hill
Agricultural Commissioner

This is the centennial year since the establishment of the California Department of Agriculture and the County Horticultural Commissions as they were then called. The cover of this years crop report depicts an article in an early Red Bluff newspaper naming the members of the Tehama County Horticultural Commission. The names mentioned will be familiar to most local residents as all have roads or streams named after them.

To: The Honorable Board of Supervisors
Barbara Crowley, Chairman
William Flournoy, Judi Johnson,
Burt Bundy and Russ Frey

In compliance with Section 2279 of the California Food and Agricultural Code, I am herewith submitting the 1981 Agricultural Crop and Livestock Report for Tehama County.

The total gross value for 1981 was \$89,861,200. This represents an increase of \$30,500 over 1980 production value. This modest increase resulted for the most part from increased yields as unit prices for most commodities were less than received in 1980.

In fruit and nut crops, walnuts again lead all crop values. Almond production was up considerably but per unit price was down. Olive sizes were bigger and prices higher but tonnage was so small that a reduction in total crop value resulted. Prune total value was down over one million dollars. Note: Acreage figure changes are due to a re-survey of orchards in 1981.

The numbers of beef cattle sold were up in 1981 but unit prices were down for a total value of \$14,212,000. Sheep and lambs numbers and prices were down for a 15% decrease in total value from 1980.

Increased acreage of wheat and rice in 1981 contributed to the increase in field crops total value. Milk production topped five million dollars and nursery products two million dollars, both for the first time. Apiary values were up \$127,000 over 1980 while seed crops total was down over one million dollars, mainly because of decreased acreage.

I wish to express my appreciation to the many firms, agencies, and individuals who provided this information and especially to Glenn Neilsen, Assistant Agricultural Commissioner who directed the compilation of this report and to the other members of my staff who assisted him.

Respectfully submitted

Donald R. Hill
Agricultural Commissioner

Our cover picture this year is a recent photograph of steam tractors of 1912 vintage. The photo was taken at the G. A. Humann Ranch "Old Time Steam Threshing Bee" which the Humann's present biannually (odd numbered years) on Labor Day weekend. Visitors and participants come from miles around to enjoy the activities and nostalgia at their Gerber ranch. We are indebted to the Humann family for the use of this photograph, and for many years of unique promotion of Tehama County agriculture.
