California Department of Food and Agriculture

Agricultural Commissioners' Crop Reports

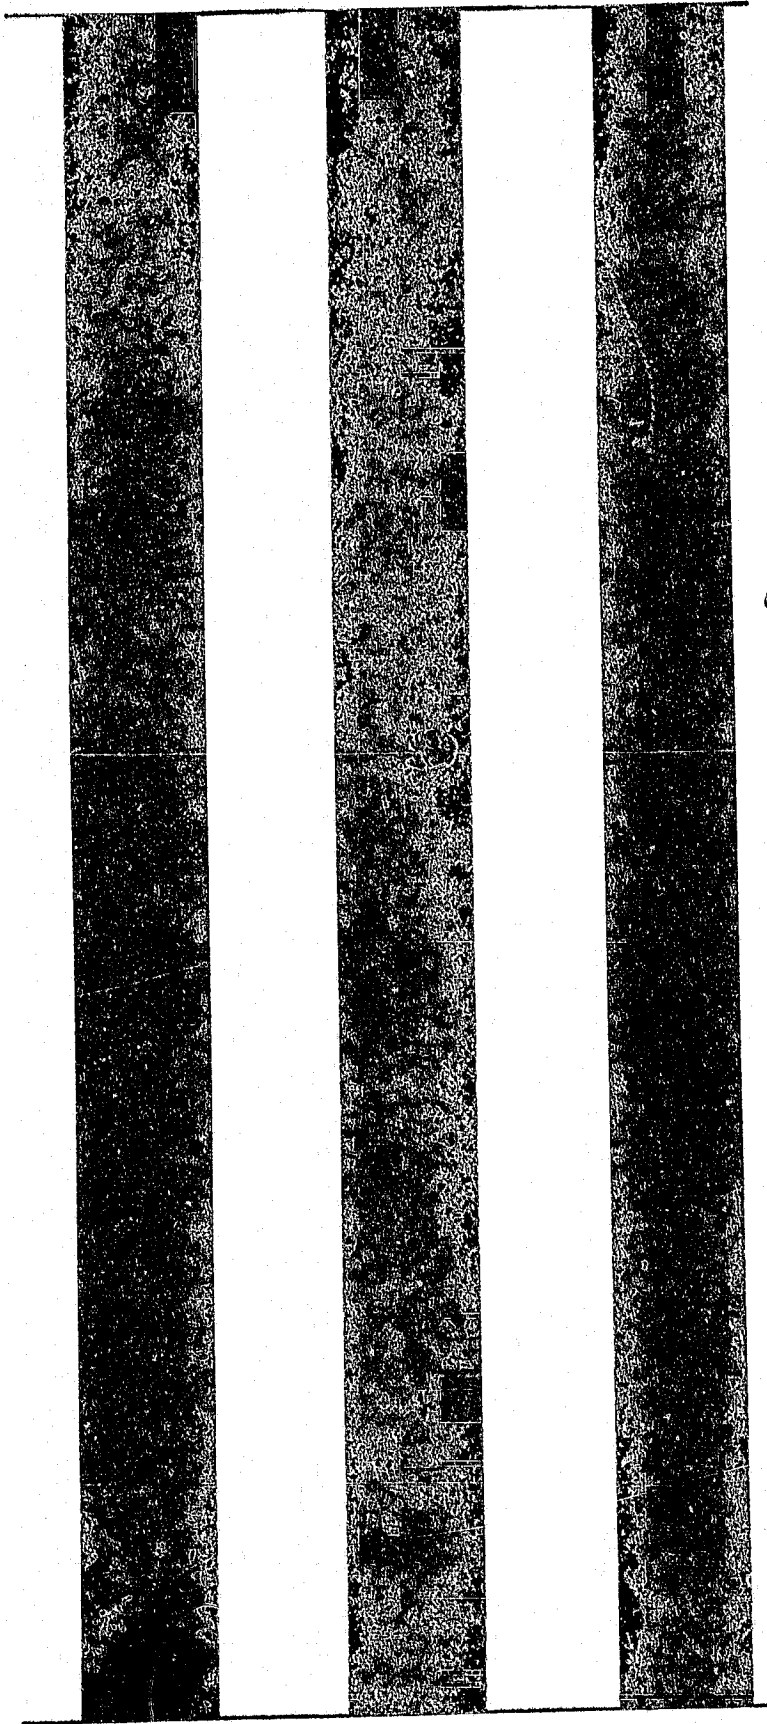

Ventura County

1978-1981

California County Agricultural Commissioners' Reports from the California Department of Food and Agriculture. This collection consists of annual crop and livestock data from each of the 58 California Counties. The collection covers 1915-1981; digitization of the rest of the collection is forthcoming.

This digitization project was funded by the Giannini Foundation of Agricultural Economics, <http://giannini.ucop.edu/>.

The work was completed by the staff of the Giannini Foundation Library, University of California, Berkeley, <http://are.berkeley.edu/library/>. **Please contact the Library to consult the originals.**

Agricultural Commissioner
W. Earl McPhail

TO RICHARD ROMINGER, STATE DIRECTOR OF
FOOD AND AGRICULTURE

AND

THE VENTURA COUNTY BOARD OF SUPERVISORS

Gentlemen:

Pursuant to Section 2279 of the California Food and Agricultural Code, I hereby submit the Ventura County Annual Crop and Livestock Report for 1978.

A new record for F.O.B. agricultural value was set in 1978 by Ventura County growers. Total returns of \$460,014,900 represent an increase of \$81,990,300 from 1977. The total value however does not represent the net return to growers only F.O.B. prices.

We wish to extend our sincere appreciation to all the growers and organizations whose cooperation have made this report possible.

I wish to thank my staff who gathered the statistics and especially Deputy Agricultural Commissioner Edward R. Urban who compiled them.

W. Earl McPhail
Agricultural Commissioner

TO: THE VENTURA COUNTY BOARD OF SUPERVISORS

and

RICHARD E. ROMINGER
STATE DIRECTOR OF FOOD AND AGRICULTURE

Pursuant to Section 2279 of the California Food and Agricultural Code, I hereby submit the Ventura County Annual Crop and Livestock Report for 1980.

A new record for F.O.B. agricultural value was set in 1980 by Ventura County Growers. Total returns of \$484,336,000 represent an increase of \$20,577,000. The total value, however, does not represent the net return to growers.

The total value could have been higher if the disastrous rains of February and March, 1980, had not caused \$25,000,000 loss to Ventura County Agriculture.

We wish to extend our sincere appreciation to all the growers and organizations whose cooperation has made this report possible.

I wish to thank my staff who gathered the statistics and especially Deputy Agricultural Commissioner Gerald W. Ashton, who compiled them.

W. Earl McPhail

W. Earl McPhail

TO: THE VENTURA COUNTY BOARD OF SUPERVISORS

and

RICHARD E. ROMINGER
STATE DIRECTOR OF FOOD AND AGRICULTURE

Pursuant to Section 2279 of the California Food and Agricultural Code, I hereby submit the Ventura County Annual Crop and Livestock Report for 1981.

A new record for gross agricultural value was set in 1981 by Ventura County Growers. Total returns of \$500,319,000 represent an increase of approximately \$16,000,000. The total value, however, does not represent the net return to growers.

Because of the Mediterranean Fruit Fly infestation in California during 1981, the Citrus Industry has experienced a disastrous year. However, the Vegetable crops increased approximately \$31,000,000 from 1980.

We wish to extend our sincere appreciation to all the growers and organizations whose cooperation has made this report possible.

I wish to thank my staff who gathered the statistics and especially Deputy Agricultural Commissioner Gerald W. Ashton, who compiled them.

Sincerely,

W. Earl McPhail
Agricultural Commissioner

WEMc/ksb
